

POLICY NO 3

PROVISION OF CHRISTMAS LIGHTS

At a regular meeting of Council held on November 24, 1986 the Parrsboro Town Council established the following policy for the provision of Christmas Lights:

Existing Christmas Lights will be maintained along the Main Street. In areas outside of the Main Street existing lights will be maintained as long as the business for which the lights were installed remains and if a business no longer exists the lights now provided will be taken down and not re-installed. Also, there will be no additional Christmas Lights installed for businesses outside of the Main Street area.
